YURI KOLESNIKOV

HEAD OF FRONTEND | FRONTEND ENGINEERING LEADER

Moscow, Russia · +7 (999) 966-06-49
yuri.kolesnikov.dev@gmail.com · t.me/kolesnikov_dev

PROFESSIONAL SUMMARY

Frontend engineering leader with 7+ years of experience building product teams, frontend architecture, and engineering processes. Currently leading a 30+ person frontend organization, covering technical strategy, standards, code review, CI/CD, and career development. Core expertise in React/Next.js, Vue/Nuxt, and TypeScript, with hands-on experience in high-performance interfaces, live video, and backend development with Node.js and Go.

CORE EXPERTISE

Frontend Leadership · SPA / SSR / SSG Architecture · React / Next.js · Vue / Nuxt · TypeScript · Developer Experience · Code Review · CI/CD · Team Lead & Senior Mentoring · Engineering Processes · Node.js / NestJS · Go · WebRTC / HLS

PROFESSIONAL EXPERIENCE

HEAD OF FRONTEND | A7 Technologies · *Sep 2025 — Present*

- Lead a frontend organization of 30+ engineers; own technical strategy, architectural decisions, engineering standards, and mentoring for Team Leads and Senior Engineers.
- Established an architecture approach for new React / Next.js products, covering SPA, SSR, SSG, and modular design.
- Introduced code review practices and CI/CD policies to improve release quality and reduce regressions.
- Built 6+ teams across different products and established a frontend community for knowledge sharing, meetups, conferences, and continuous learning.
- Designed onboarding and development plans; supported 6 engineers in progressing from Middle to Senior level.

FRONTEND TEAM LEAD | IPCHAIN · *Oct 2021 — Sep 2025*

Nuxt 3 · Vue · TypeScript · Node.js · NestJS · MongoDB

- Led a team of 7 frontend engineers delivering internal and external products across the IPChain ecosystem.
- Designed and built a POEditor-like localization management service, including a NestJS and MongoDB backend, reducing the translation-to-release cycle by approximately 50%.
- Created a competency matrix and supported two engineers in promotion to the next level.
- Concurrently led frontend development for Kaspersky Container Security, designed the React architecture, and delivered the frontend MVP.

FRONTEND TEAM LEAD | TeleSport Media · *Jun 2021 — Sep 2025*

Nuxt · TypeScript · React · HLS

- Led 3 frontend engineers maintaining and evolving the TeleSport streaming portal.
- Rewrote the HLS player from class-based React to the Hooks API, simplifying the codebase and improving performance.
- Introduced Sentry and improved error monitoring, page load performance, and streaming stability.
- Designed a team motivation system.

SENIOR FRONTEND DEVELOPER | Cryptology · *Dec 2020 — Jun 2021*

React · Next.js · Ant Design · WebSockets

- Developed a cryptocurrency exchange frontend in a monorepo environment, working with high-frequency event streams and performance-sensitive interfaces.

MIDDLE FRONTEND DEVELOPER | NodaSoft · *Nov 2019 — Dec 2020*

React · Redux · Redux Saga · Redux Form · Yup

- Built high-load product applications and widgets for the abcp.ru platform as part of a product engineering team.

FRONTEND DEVELOPER | Gold Carrot · *Mar 2019 — Oct 2019*

Vue 2 · Nuxt 2 · Vuex

- Developed web applications using Vue 2 and Nuxt 2, including application state management.

FREELANCE FRONTEND DEVELOPER | Independent · *Mar 2018 — Mar 2019*

HTML · CSS · JavaScript

- Delivered HTML/CSS layouts and implemented basic client-side functionality in JavaScript.

EDUCATION & LANGUAGES

Moscow Tax Institute (State Research Institute of the Federal Tax Service of Russia) — Higher Education, 2013

Russian — Native · English — B1 (Intermediate)

ADDITIONAL INFORMATION

Audio development interests and experience include custom audio players, audio analysis, waveform visualization, and C++ VST plugins. Has explored Rust. Interests: audio engineering and motorcycles. Open to relocation and business travel.
